# Things to consider when consolidating existing ISAs into one account

## Into a Ready-made ISA

This account only holds a fund from the ES Share Centre Multi Manager fund range, all existing funds or equities (except any holding in the ES funds) will be sold and the cash transferred to the new ISA.

## From a Corporate ISA into a Self-select Stocks & Shares ISA

If you're consolidating a Corporate ISA you will lose the preferential dealing commission of 0.5% on the named corporate company. Please refer to the costs sheet for the dealing commission options that can apply to the Self-select Stocks & Shares ISA.

## The following are applicable to all account types

The income option (how we manage your dividends) you have chosen overleaf will apply to the new ISA. If you have chosen our dividend reinvestment option, this reinvests into the company that paid the dividend rather than on a quarterly basis which may have applied to your existing ISAs. This is subject to a minimum dividend of £10.

If you have entered different bank details overleaf to the one we have on our records we will require an original bank statement as confirmation of the details.

The illustrations above are based on the following:

Our charges are the charges for operating your account with us, e.g. Administration fee (where applicable) Dealing commission and stamp duty (where applicable). Please refer to the Tariff sheet for more details of the charges taken by us. Please note that the Administration fee is fixed and will not increase with the addition of further investment.

Investment management charges are the charges for managing the investment and are charged by the Investment Manager not us. The charges for investment trusts and funds are based on average rather than actual amounts. For details of the specific charges and how they could affect your chosen investment, please refer to our website. Please note there are no Investment management charges for investing in shares.

Charges are based on one lump sum contribution or 12 regular contributions over an annual period with no further lump sums or any withdrawals.

Other charges may be applicable based on your personal circumstance and dealing frequency.

\*Includes Investment Clubs and Company/Trust/Partnership Accounts.

## The cumulative effect of costs and charges on return

	What your value could be if there were no charges			What your value could be after charges		
	Shares	Investment trusts	Funds	Shares	Investment trusts	Funds
Junior Investment Account & Share Accounts*	£5,624	£5,624	£5,624	£5,463	£5,300	£5,326
Self-Select ISA	£5,624	£5,624	£5,624	£5,346	£5,184	£5,210
*Ready-Made Lifetime ISA Ready-Made ISA*			£5,624			£5,334

The total charges deducted for each investment will have an impact on the return you might get. Whilst performance cannot be guaranteed we can provide examples of how the charges will affect what you might get back.

Based on £5,000 investment held for 3 years with an assumed net growth rate of 4%.

# Your questions answered

## How are my account costs paid?

### Administration fee:

Taken from your account on the 26th of each month or the next business day. Please ensure there is sufficient cash on your account to cover fees. If there is not enough money in your account to pay the fee, we will take the payment from the next credit to your account. If outstanding fees increase over time, you will be able to see the amount owed on your statements. You can then pay into your account as normal to cover the fee owed. Please note, we will write to you if the outstanding amount is not cleared and we can sell investments in your account to cover the fee owed. Should this occur, the Overdue Fee Charge will be applied to each stock sold to pay your fees.

### Statements & contracts notes:

Same as above if received by post (free if received by email).

### Frequent dealing option fee:

If you've chosen our Frequent dealing option, the first payment is taken from your account when opened (and quarterly thereafter). We'll let you know if there's not enough money in your account to pay the fee, and switch you to our Standard dealing option if you still don't pay enough money in.

### Dealing commission and Regular Investing fees:

Taken from your account as part of each transaction.

### Other fees:

Taken from your account at the time of the individual transaction. We will contact you if there is insufficient money in your account to cover any fees due.

## What interest is paid on cash in my account?

Gross interest on any cash you hold is credited quarterly to your account at the Bank of Scotland base rate less 3.5%. The Share Centre may retain the difference between the interest paid to you and the interest we are able to earn, as permitted by The Financial Conduct Authority.

## Which shares are exempt from stamp duty?

In a bid to help growth companies raise finance and encourage you to invest in them, the Government doesn't charge stamp duty on shares on AIM and other recognised growth markets (subject to the appropriate certification). Please refer to the HMRC website to find out which markets are classified as 'recognised growth markets'. Since stamp duty exemption is on a company by company basis, feel free to give us a call on 01296 41 42 43 to check whether a particular share is exempt or not.

## Will I be penalised for withdrawing from my Lifetime ISA?

There is no withdrawal charge if:

- You are buying your first home (assuming you have held money in the account for at least 12 months)
- You are over 60
- You have a terminal illness
- The account holder is deceased.

If you withdraw money for any other reason, you will be charged a 25% withdrawal charge, which goes straight to HMRC.

## Why is the illustration based on £5,000 lump sum and £300 per month investment rather than the amount I wish to invest?

This has been used as a typical investment amount for illustration purposes. Please be aware that if investing a lump sum less than £2,000 the dealing commission for offline transactions are higher than investments made online.

## Why does the illustration not represent my personal circumstances or investment amount? Can you provide me with a personalised version?

The illustrations are intended to be generic in nature and it is not feasible to cover personal circumstances for customers, therefore, we will not be producing personalised versions of the illustration.

## Why does the illustration not include all the charges I may pay or represent the frequent dealing tariff? Where can I see what other charges are applicable to my account and investment?

Our illustration is based on the standard tariff and charges to keep the illustration as simple as possible. To cover the various charges that might be incurred there are too many variables that will affect this, such as the number of investments or withdrawals you make, and therefore it not practical to make assumptions on this. Our tariff contains details of all our accounts charges. For details of the investment management charges and how these could affect your chosen investment, please refer to our website. The Key Investor Information Document (for funds) or Key Investor Document (for Investment Trusts) also contains details of the charges together information on the risk and performance of the investment.

## Why have you used a 4% growth rate for a three year period?

4% has been used as an average rate of return. The actual investment return could be greater or less and 4% has been used for illustrative purposes only. The Key Investor Information Document (KIID) or Key Information Document (KID) will provide details of the past performance of your chosen investment. Don't forget that past performance is not a reliable indication of likely future performance.
